Official Measurement Confirms Reports of the Balloon Race.

Official records of the recent international balloon race have just been completed by William Welsh, chief draughtsman, Signal Office, who was designated by Captain Chandler to authenticate the figures issued by the Geological Survey.

NEW ALASKA RAILROAD TO REACH BERING LAKE

SEATTLE, Oct. 25.—Alaska railroad men are mystified by a new corporation known as the Katalla Anthracite Coal Field Railroad, about which little is known except that articles of incorporation have been filed. It is believed that Eastern capital is behind the project, and that it is intended to penetrate to the Bering Lake coal fields.

Opening of the Union Station of the Washington Terminal Company

The new Union Station of the Washington Terminal Company, will be placed in service on Sunday, October 27th, 1907.

On that date all passenger trains of the Baltimore & Ohio Railroad, both through and local, will enter and depart from the new station, and the present station of the Baltimore & Ohio Railroad at New Jersey Avenue and "C" Street will be closed to traffic.

On November 17th, the passenger trains of the Pennsylvania Railroad (Philadelphia, Baltimore and Washington Railroad) the Washington Southern Railway, the Southern Railway, the Chesapeake and Ohio Railway, the Atlantic Coast Line Railroad and the Seaboard Air Line Railway, will run into and depart from the new Union Station and the present station at 6th and "B" Streets will be discontinued.

The station building as far as the interior arrangements are concerned, is not finished to that degree of completeness in which the Washington Terminal Company has endeavored and hoped to present it to the use of the public, and for some time at least, on account of the enforced continuation of the work of fitting out the interior, the traveling public will not be able to enjoy the full benefit of its conveniences.

This condition is due entirely to the fact, that in order to complete the grading of the ground adjacent to the station, according to the Act of Congress creating the station, the present tracks of the Baltimore & Ohio Railroad must be removed, and to the further fact that in order to push to completion the elevated structure carrying the tracks of the Pennsylvania Railroad, the surface tracks on a portion of Maryland Avenue and on 6th Street leading into the present Pennsylvania Station must be abandoned, thereby cutting off all track connections with the 6th and "B" Streets Station.

All track connections of the various railroad lines with the Union Station are complete, and the eastern end of the Union Station will be fully equipped for business on the specified dates.

In the meantime the work on the main portion of the new station will be forced forward with all possible rapidity, and it is confidently expected the entire structure will be completely finished by the end of the present year.

THE WASHINGTON TERMINAL COMPANY,
C. W. MARTIN, Superintendent.

Three Very Popular Grades in Parker-Bridget Suits and Overcoats

Three grades that are really remarkable. We ask your most critical inspection. We want you to look for the weak points---because such a search will develop the strength of the values---of the making---of the absolute and entire perfection of Parker-Bridget suits and overcoats at these prices.

Fifteen dollars is a popular price—and it's enough of a price for us to show about 25 distinct patterns in the new long single and double-breasted models; enough of a price to have us incorporate factors of fine tailoring, fine fabrics, and fine trimmings. Garments made to your personal measure can't satisfy any better—and suits offered elsewhere at \$20 in most instances are not comparable.

Eighteen dollars sees the variety widen and the values increase in wonderful ratio to the price. The tailoring is the evidence of master workmanship; the style and character are the fruits of high art cutting and designing. In every detail of these suits, in every line are points of merit to be found only in the product of the superior custom tailor.

At twenty dollars an unprecedented showing, an unequalled assortment. The best suits that have ever been produced to sell under \$25 are these. The materials are the product of famous English looms, and in many instances the best produced in America—the swellest and most dignified patterns. We ask you to study the details of these garments, for in them lies the secret of superiority. A perfect fit is assured, no matter what your size.

Boys' Suits and Overcoats at \$5.00

THE SUITS comprise all styles for Boys from 3 to 17 years—double-breasted, Norfolk Blouse and Russian effects—of elegant all-wool woven chevots and cassimeres, in mixtures, checks and plaids; also the celebrated "Hereules" rainproof suits, which are really rainproof and guaranteed so.

We see these same values priced elsewhere at \$6.98 to \$7.50.

THE OVERCOATS comprise the long swagger style and the Reefers in sizes 2 1/2 to 17 years, of every good fabric that is adapted for this class of garment. It is the largest variety we have ever shown, and you know that means it is the largest in this city. Comparison will convince you that values such as these are \$7.50 elsewhere.

\$3.95 for Boys' Suits, in double-breasted Norfolk blouse and Russian styles, in sizes 3 to 17 years, of woven chevots and cassimeres, in mixtures, checks and plaids, with knickerbocker pants—suits which you cannot match under \$5 elsewhere.

Boys' All-Wool and Worsted Sweaters, in all sizes **\$1.00 to \$3.00** and all colors—a complete line at.....
